The front garden is laid to gravel and there is further block paved driveway to the other side of the property where a 3.5m wide driveway leads to a detached garage/workshop with a remote controlled electric up and over door. A doorway at the end of the driveway provides access to the utility room. Beyond here, there is a low retaining rendered walled boundary with railings above. Beyond here a retaining stone walled boundary with winding steps lead up to a large terrace garden laid to sandstone paving offering a lovely raised seating space with three raised flowerbeds, a rockery, water feature and a summerhouse which has power and light and a decked area immediately outside. From here, feature pedestrian gates open onto a winding sleeper and cobbled pathway which extends across the full width of the plot to the other side where there is a pond and borders

The path takes you back round to the main central portion of the garden which is laid to lawn and includes mature shrubs and trees, including a silver birch and further borders.
