- Delightful Village Setting

We have great pleasure in offering to the market "EASTHORPE GREEN". A unique, considered development of 39 beautifully designed and well thought out homes, situated within the highly regarded hamlet of Easthorpe. A pretty village situated within the Vale of Belvoir and adjacent to the well served village of Bottesford, whose wealth of amenities are only a short walk away.

The development is provided by a highly regarded, family owned local developer, GUSTO HOMES. Known for their energy efficient and creatively designed range of high quality bespoke dwellings, as well as a reputation for after sales service and care; Gusto Homes have been providing stunning homes for almost three decades. This site will be of no exception and will have a focus on high efficiency, with the predominantly new build element of the site benefiting from air source heat pumps, ground floor underfloor heating (to the two storey new houses), triple glazed windows, roof mounted photovoltaics, car charging points and enhanced insulation. In addition there will be premium appliances paired with modern kitchens and sanitary ware, with early reservation providing clients an element of colour choices for kitchen door finishes, tile and floor coverings.

The development will be released in several phases, predominantly of new build construction and includes in later stages a selection of single and 1 1/2 storey homes, specifically for the over 55's.

Phase One comes with the release of three individual conversions within "Easthorpe Lodge". A beautiful period home, that is undergoing a sympathetic programme of renovation, which will provide three well proportioned, efficient conversions, which retain elements of their original character but tastefully combined with the benefits of contemporary living, including up to date insulation, flush casement double glazed windows and gas central heating. These, together with two new builds, will be the first taster of this exciting site, with the first five units scheduled for completion in late summer 2025.

EASTHORPE

Easthorpe is a small hamlet adjacent to and within walking distance of the village of Bottesford which is well equipped with amenities including primary and secondary schools, a range of local shops, doctors and dentists, several public houses and restaurants, railway station with links to Nottingham and Grantham which gives a fast rail link to London's Kings Cross in just over an hour. The A52, A46 and A1 are also close by providing excellent road access.

ADDITIONAL NOTES

Please note, all images are for guidance only and give an indication of the proposed finishes but may not represent exactly the completed product. Internal images are taken from other Gusto Homes sites but may not show the same room size or configuration as the proposed plots at Easthorpe Green. Exterior elevation images are computer generated and are for guidance only but are indicative of each design.

Due to the nature of the conversions of Easthorpe Lodge, the specifications on these three units will differ from the new build dwellings. i.e. central heating system with radiators to ground and first floors, as opposed to the new build two storey homes which will have underfloor heating to the ground floor and radiators to the first. The single storey homes (coming in phase three) will have radiators as opposed to underfloor heating.

Further details can be provided regarding individual plots and specification, upon request.

The properties will be on mains drainage, electric and water. The new builds will have air source heat pumps and photovoltaics, as well as triple glazed windows and ten year warranties (warranty not applicable to the conversions). The three lodge conversions will feature double glazed windows and gas central heating.

Please note:- As is common with similar developments, there will be a resident owned management company for communal areas of the site. Gusto Homes will assist with the setup of this and provide the necessary support to facilitate its introduction. This will all be set up and collected once the managing agents have been set up and the management company activated, later in the site. The developers have informed us that the service charge will be around £250 per year, around £20 per month. Basing this off their other developments that are set up in a very similar way with a similar amount of communal space etc.
