- 2 Receptions + Superb Open Plan Kitchen/Dining Area
- About 1/2 An Acre

⌚ Freehold

⌚ EPC Rating

A fantastic opportunity to own a brand new, high specification village home, built by the superb developers 'Ergo,' who were the British Renewable Energy Awards Finalist in 2024.

There are two opportunities here: The First is to buy the plot of land at £300,000 and build your own home out yourselves, or, buy the plot of land at £300,000 and contract Ergo to build the property for you at a set cost of £900,000. With an early reservation, the internal build is fully customisable to meet your heart's desire.

It is located in a rural setting with fields to both the front and rear. The structure has been designed with environmental responsibility in mind with a triple glazed windows, air source heat pump, photovoltaic panels and battery storage, EV charging point and a ventilation & heat recovery system. Internally there will be an impressive dual aspect open plan kitchen/dining space, a delightful sitting room, additional study, ground floor bedroom with en suite bathroom, a utility room and cloakroom. The property will be heated with radiant panels but this can be changed to an underfloor heating system if preferred. It will also have a cooling system in Summer. On the 1st floor there will be 3 further double bedrooms, one with an en suite and dressing room, plus the family bathroom. You will be able to take in the views of the beautiful Wiltshire countryside from any one of the bedrooms. Outside the garden will have a patio and lawn but as with all the interior this can be landscaped to one's own designs and requirements. There will be private parking for a number of cars and an open fronted barn style double carport and garage. There will be an EV charging point too.

Property Information

The property will be set in a rural location, between the two popular villages of Seend and Worton. Seend has a thriving community and is well known for its many fine period buildings that align The High Street and provides a wide range of amenities including a local shop/post office, 2 public houses in the neighbouring Seend Cleeve with The Barge fronting on to the canal, a primary school, playing field, village hall and social club. Worton also offers a public house and a thriving primary school. The historic town centre of Devizes is within 5 miles and provides excellent shopping facilities, schools for all ages, museum, leisure centre and a bustling weekly market. The major centres of Bath, Swindon, and Salisbury together with the country towns of Trowbridge, Chippenham and Marlborough are all within a 30 mile radius. Communications in the area are excellent with main line rail services to London Paddington from Chippenham, Pewsey and Westbury. The M3 to the south (A303) and the M4 to the north provide fast road access to London and the West Country along with Heathrow and Gatwick airports.

The floorplan images are intended to show layout only and are not intended to accurately depict finish or specification. For details on specification please contact Strakers. The CGI images are representative of how the house will look at the end.

Council Tax still to be determined. Predicted SAP to follow. Services: Air source heat pump, mains water, mains electricity and photovoltaic panels and battery storage, septic tank. Triple glazed windows. Electric vehicle charge point. Ventilation & heat recovery system.

About the Developer

Ergo are formed from various disciplines of highly qualified professionals, able to offer a bespoke and extremely high quality service, with a proven track record in Passivhaus construction. Their mix of professional backgrounds gives Ergo the edge on using modern construction technologies, combined with the best traditional methods to achieve truly outstanding results.

This bespoke arrangement allows you to partner with proven experts from the outset on exchange of the contracts of sale. This will allow an immediate start on site within a week of sale completion. Typically the engagement of a Builder, Architect & Structural Engineer would take 6 months before commencement on site.

Ergo will allow you to complete a self-build project on time and on budget without the usual dramas seen on Grand Designs.

Agents Notes

Please note the images used are CGIs (computer generated images) to show how this property will look once it has been built. It is a new home currently under construction.

Ground & First Floor Layouts

Disclaimer These particulars, whilst believed to be accurate are set out as a general outline only for guidance and do not constitute any part of an offer or contract. Intending purchasers should not rely on them as statements of representation of fact, but must satisfy themselves by inspection or otherwise as to their accuracy. No person in this firms employment has the authority to make or give any representation or warranty in respect of the property. All measurements and distances are approximate only. Your home is at risk if you do not keep up repayments on a mortgage or other loan secured on it.
