Summary:

Bryan Bishop and Partners are delighted to bring to the market this absolutely charming three bedroom mid-terrace cottage that enjoys a wonderful location on the ever popular south-west side of Welwyn Garden City. This lovely family home is presented in superb decorative condition inside and out with modern energy efficient double glazing supporting the naturally low running costs that come with a mid-terrace property. The deceptively spacious interior has a cleverly blended mix of open plan and enclosed rooms, and has been sympathetically extended to offer generous living space that includes a large separate living room, open plan kitchen/dining room and a superb utility/laundry room that incorporates a useful separate ground floor WC.

Accommodation:

The part glazed front door is set beneath a porch roof that extends across from the fabulous front facing bay window, giving welcome weather protection to all your visitors as they arrive. Inside is a delightful and spacious entrance hall that flows alongside the beautiful staircase with its ornate turned and carved spindles and newel posts. The entrance hall is a light, bright space with a superb extended view back through the house, through the open entrance into the kitchen/dining room and on out into the rear garden, giving it a really open and airy feel.

From the front of the hallway a door leads into the front facing living room, which is a good size and a nicely square shape, making all of the ample space on offer fully usable. The original parquet flooring has been beautifully restored by the owners, and the highlight of the room is without doubt the fabulous bay window that takes up the majority of the front wall, allowing the light to flow in unhindered and fill every corner of the space. Comfortably large enough for multiple sofas and chairs, this is a stylish as well as practical family social space that works really well together with the open plan arrangement for the kitchen/dining room.

The kitchen/dining room is another well planned living space with a generous size and nicely balanced shape. Extending to nearly twenty feet in length, it occupies the full width of the rear of the house, and like the living room, is blessed with very high levels of natural light thanks to a pair of glazed french doors that open directly from the dining area onto the rear patio, further supplemented by an additional window in the kitchen area and a glass sliding door just inside the connected utility/laundry room. The architect has done a fantastic job in maximising the space and light in this lovely family home, substantially elevating it above what you would usually expect from a terraced house. The kitchen/dining room epitomises the wonderful result, showing just what can be achieved with a clear focus and plenty of creative talent. One side of the room has been chosen to host the 'working' kitchen, with a comprehensive array of wall and floor mounted cupboards fitted around the perimeter walls, which extend out into a fabulous island that also houses a four seater breakfast bar. The super-clean lines of the cabinets blend in perfectly with the white tiled splashback areas, subtly incorporating a full range of integrated appliances from premium manufacturers in a stylish and ergonomic layout.
