SITUATION & AMENITIES

Lincombe and Lee are in an Area of Outstanding Natural Beauty and the North Devon Coast Conservation Area. The hamlet of Lincombe is close to the village of Lee and Lee Bay Beach, 2 miles to the West of Ilfracombe. Lee Bay is bordered on three sides by rolling Devonshire countryside and on the fourth by the Bristol Channel. The hub of the village is centred around St Matthew's Church. Opposite the church stands the Village Hall and Pixie Meadow – the siting of many a village fete in bygone years and present times. The village also offers the Grampus Inn, which is the only public house and this serves food. The small rocky cove with its imposing coastline on either side has remained untouched by the hands of time. At low water, even in the height of Summer, it remains a tranquil spot with its many rock pools and small sandy beach. For the more energetic a multitude of splendid contrasting local walks stem from the village (as well as behind the property itself). Most are well signposted and vary in type and length. The bustling village of Woolacombe with its 2-mile long sandy beach is a short drive or a rambling coastal walk away. Further afield Croyde Bay, Putsborough and Saunton Sands (also with Championship Golf Course) are all ideal for surfing and bathing. Exmoor is also easily accessible with its beautiful rugged coastline and dramatic scenery, open moorland and wooded valleys. Barnstaple – North Devon's regional centre – is within ½ hour by car and provides a comprehensive range of business and leisure facilities, as well as live theatre and district hospital. From the town the A361 North Devon Link Road provides easy access to Tiverton Parkway railroad (London Paddington in just over 2 hours) and beyond to the M5 Motorway. The area is well served by excellent state and private schools including West Buckland school. The nearest international airports are at Bristol and Exeter.

DESCRIPTION

The main dwelling is a very substantial detached period barn, understood to have originally been converted during the late 1980s, but completely remodelled and upgraded in 2023 when the adjoining self-contained but intercommunicating two-storey cottage annexe was converted. Generally, the property is of stone construction with part-painted rendered elevations, double-glazed doors and windows throughout, all beneath a slate roof. A particular feature are the series of arched windows displayed in the front elevation, which together with the extensive sun terraces and balcony, combine to give the property an almost Mediterranean appearance. The accommodation is bright, spacious and adaptable and arranged on a reverse living basis in order that all principal rooms benefit from the delightful full South-facing views, which include distant sea views. The conversion has been skilfully and sympathetically undertaken to combine modern refinements with many original period features. The aforementioned cottage annexe (known as Feather & Stone) is suitable for use as an extension to the accommodation as it interconnects, or for guests, relatives or as a holiday let (as at present). This has a private garden and allocated parking. 'The Barn' is a detached barn conversion of stone, beneath a slate roof with double-glazed doors and windows. This has its own access, parking and designated garden, and is included in the sale of the entire property or can be excluded from the sale as the vendors would be happy to retain it. This has residential consent, and as such can be rented out – subject to a purchaser's requirements.

The Retreat is a further detached barn conversion of stone beneath a slate roof with double-glazed doors and windows. This is accessed via the main drive and central car park, but has designated parking and private garden with hot tub. Generally, all three dwellings have been the subject of conversion or extensive modernisation as well as substantial investment in the last 2 years and are basically period shells with contemporary interiors, finished to a high specification. All three exude flair, quality and style. There is a detached garage and car port which serve the main house, as well as additional parking bays. All three of the secondary units have designated gardens (as previously mentioned). The main dwelling has a lower terrace and an upper terrace/balcony, as well as a secret semi-tropical garden.
