

19 Brooks Drive

Leamington Spa **CV33 9NU**

Guide Price £750,000

19 Brooks Drive Harbury

Summary

Being attractively positioned on a recent development close to the fringe of Harbury village yet well placed for access to village amenities, this executive three storey detached house was built by David Wilson Homes approximately eight years ago to their Emmerson design. Providing exceptional family accommodation, that includes five double bedrooms arranged over the two upper storeys, the current owners have also installed utility solar energy with approximately a dozen panels to the front roof slope, also benefiting from battery storage and contributing significantly to the property's electricity usage. Other striking features of the gas centrally heated and double glazed accommodation include a spacious

lounge, along with separate dining room which can be utilised as a study. The kitchen/dining room is equipped with a range of integrated appliances, also having utility room off, whilst the master bedroom benefits from an en suite shower room and dressing area, along with two further bathrooms to the first and second floors. Externally the accommodation is further complemented by a detached double garage, parking for approximately six cars and a lawned and landscaped rear garden. An exceptional opportunity to purchase a substantial family home in a highly popular village location.

Location

Harbury is a highly regarded and sought after village, lying around six miles south-east of Leamington Spa and offering excellent village facilities which include a highly popular primary school, village stores and post office, doctors' surgery, three public houses and extensive sports and social amenities. Additionally, the village is exceptionally well placed for access to local infrastructure including Leamington Spa and Warwick, rail access from Leamington Spa and Banbury giving direct links to Birmingham and London, together with access to the Midland motorway network, notably the M40.

Features

David Wilson-Built Executive Detached

Three Storey Accommodation

Services

We understand that mains water, gas, electricity and drainage are connected to the property. We have not carried out any form of testing of appliances, central heating or other services and prospective purchasers must satisfy themselves as to their condition and efficiency. The current owners have added a good number of solar panels to the front roof slope, also benefiting from battery storage. These provide a substantial part of the property's electricity provision with full figures being available upon request.

Fixtures & Fittings

Specifically excluded unless mentioned in these sales particulars.
