Rear Garden

Simply magnificent! This is south-facing garden is a paradise for keen gardeners. Accessed from the conservatory and driveway, you alight upon the large dining patio, which has plenty of space for seating and dining. Neat paved paths pass each side of a large circular pond with flowers and bushes surrounding the water's edge. In this top half of the garden there are hedges and flower beds bursting with colour.

A decorative wrought iron arch on the left and timber arch on the right lead to a wide gravel path and neat oval lawn, with silver birches and a delightful cotoneaster tree. Judging by the chattering birdsong and lovingly maintained flower beds, it's a haven for wildlife. Indeed, the owners have had a wildlife camera set up and captured a badger and fox visiting the garden together one night!

Towards the end of the garden is a mosaic patio and a paved patio with space for seating or dining, together with a potting shed and large summer house. We love the hedgehog run that has been created in this area. With open fields immediately beyond, it is a peaceful and serene place in which to relax.
