REAR GARDEN

The rear garden is a particularly attractive feature. As previously mentioned, the rear garden has a south westerly elevation, so is in sunshine throughout virtually the entire day. The garden has a depth of 95'. Running across the rear of the property is a shingle area and adjacent to this is a pergola that covers a seating area. From here the garden is largely laid to lawn and planted with a varied assortment of shrubs and trees. From beneath a second pergola there is a continuation of the lawn which presently provides a children's play area and from here there is hard standing for a garden shed. Access to the front garden through a wooden gate.

FRONT GARDEN

The front garden is retained by a low level red brick wall and provides off street parking for several vehicles with ease.
