Upper Mall Hammersmith W6

Tucked behind a private walled garden on the historic Upper Mall, this exceptional four bedroom home sits on one of west London's most coveted stretches of the River Thames. Surrounded by elegant period architecture, the house brings together contemporary design with a deeply atmospheric setting, offering uninterrupted views of the river and Hammersmith Bridge from its upper levels. The home is arranged across four thoughtfully designed floors. Each space has been carefully considered to allow light and outlook to shape the experience of the interiors. Full-height glazing and well-placed openings bring in natural light throughout the day, while framing the ever-changing river landscape outside. The ground and lower floors offer a series of calm, generous reception areas, ideal for both entertaining and day-to-day life. Four

bathrooms serve the four spacious bedrooms, creating an easy sense of balance across the house. Every level has been designed with flow in mind, and the result is a sense of quiet refinement that runs throughout. Outside, the towpath leads directly into nature, connecting Upper Mall with Furnival Gardens, the historic Dove pub, and riverside walks towards Chiswick and Barnes. Despite the calm setting, connectivity is excellent: Hammersmith and Ravenscourt Park Underground stations are both a short walk away, while the A4 offers direct routes to Heathrow and central London. For families, the house lies within reach of some of the capital's most respected independent schools, including Godolphin & Latymer, Latymer Upper and St Paul's. This is a rare opportunity to live in one of the river's most admired enclaves - a home that feels both rooted in history and quietly contemporary..
