"I have loved every minute of living in my home, with my lovely neighbours and I am sad to go. I have so many good memories of bringing up my children and their children in this house. We had a piano under the stairs that the grandchildren would always play when they were round. The apple trees in the garden have always brought us together by making crumbles and apple pies. The garden is a very sunny and warm place to spend time relaxing and looking after my plants."
