" We have loved living in our flat and transforming it into our first home together. The private garden and proximity to Wapping Wharf and North Street are definitely our top highlights. The garden is an oasis within city living – being able to close the gate on the world and enjoy our outdoor suntrap has been a real bonus. We love the fantastic location; exploring the local independent restaurants, shops and bars right on our doorstep has made us certain we want to stay in the area when we move. "
