"I fell in love with this apartment because of its central location and beautiful, plush interiors. In particular, what I loved was the floor to ceiling windows in the living space which bring floods of light into the room, and Juliette balcony which has been lovely to sit at with a glass of wine during the summer. My favourite thing to do to relax is lay on the sofa with a cup of tea listening to some music and watching the trees outside rustle through the giant windows. On a practical level, there is so much storage in this apartment, with the large fitted wardrobes and 3 built in cupboard spaces for utilities, coats and shoes, so I'm never finding I run out of space. Although the built in Poggenpohl kitchen provides plenty of storage and high-spec appliances to cook with, I do love to eat out a lot, Bristol is one of the best places for food in the U.K."
