"We have lived in Number One Bristol throughout University and as young working professionals. The proximity of the building to Bristol city centre meant that work, study, and leisure activities were always a few minutes walk away. Despite the bustling city, the apartment is also very cozy for a quiet night in with an excellent view of the city skyline. The building has all the amenities we needed including secure bike and parcel storage, a rooftop garden and working space, a gym, and a dedicated parking space. We have loved our time in this central location."
