*"Balmain Street has been a friendly and colourful place to live. Being a destination it is quiet, and there are so many green areas within 5 -10 minutes, and a cycle path along the river just down the hill. The view from our doorstep across to the other side of Bristol is very special and walking to Temple Meads, the waterfront or into town is all very easy. We are also very lucky with cafes, bars and places to eat. One of the best things though has been the wonderful Hillcrest School where our son loves learning and has made the best friends."*
