## ABOUT THIS HOME

A Rare Opportunity to Build a Contemporary  
Woodland Retreat – Temple Ewell, Dover

Set within approximately 0.95 acres of private, tree-lined landscape, this fully consented plot offers the chance to create a beautifully designed, eco-conscious home with breathtaking views across Temple Ewell Downs. Positioned at the end of The Avenue, with additional access via Park Road, the site benefits from a natural slope and dense boundary vegetation, offering both privacy and a dramatic architectural setting.

The approved scheme – inspired by the idea of “a clearing in the woods” – features a two-storey home that blends seamlessly into the topography. The lower ground level, built into the landscape, includes guest accommodation, a multi-use space and plant room, allowing for minimal visual mass and enhanced thermal performance. Above, the main living areas rise into the canopy, opening up to expansive countryside views through full-height glazing.

Design features include:

- Vertical black timber cladding, wildflower roofs and rammed cement walls
- Sloped driveway and carport, with generous off-road parking and turning space
- Passive design principles, solar thermal and PV panels, ground-source heat pump
- Private, west-facing garden aspect framed by mature trees
- Slow worm hibernaculum and TPO-protected trees already accounted for
- Mains drainage and utilities available nearby

This is an exceptional opportunity to create a sustainable, architect-led family home, designed to respond directly to the land and its natural beauty.

Owners Remarks:

It's with real regret that we offer this beautiful piece of land for sale due to personal circumstances. Our vision was to create a home where we could step outside and be immediately immersed in the natural world and this land offered all this. It's a living, breathing space filled with beauty and wildlife. We've regularly seen badgers, foxes, lizards, and protected slowworms, and the woodland is alive with birdsong throughout the year. There are meandering paths, sun-dappled glades, quiet clearings for contemplation, and hidden corners perfect for children to explore — with trees to climb and secret spots to discover. Planning permission is in place for a striking, high-end design, but the property would lend itself to a range of different developments. Whether your style is contemporary and ambitious, or simple and low-impact, this is a truly versatile and special site.

We hope the next custodian will love and care for it as we have, and perhaps make their own dream a reality here.
