Shared Ownership - A More Affordable Way To Buy Your Home:
Shared Ownership allows you to buy a share of a property and pay rent on the remaining share owned by a housing provider. This can make getting onto the property ladder more accessible with a smaller deposit and mortgage than buying outright. In many cases, you'll have the option to increase your ownership over time through a process called staircasing, potentially owning 100% in the future. Eligibility criteria apply, and monthly costs will include your mortgage, rent, and any service charges.
