Description

Beacon Park, a quiet 'no through' road situated between Potter Hill and Middleton Road, just a short walk from the centre of Pickering where all the usual market town facilities are on hand. A street of mixed properties, popular with retired persons and young families alike, Beacon Park is conveniently located for the nearby schools and properties within this locality only occasionally come to the market.

19 Beacon Park is thought to have been built in the 1920's. Although since then it has undergone some modernisation, it has had little done to it for a significant time and still retains many of its Edwardian features. The house has two reception rooms off the main entrance hall and a kitchen that currently incorporates a similar sized utility room. The ground floor also has a cloakroom and access to an integrated garage. The first floor has three bedrooms served by a family bathroom.

Outside, to the front of the house, is a small garden and drive parking that extends to an integrated garage with a sliding wooden door. A foot path runs around the side of the house leading to a private, secure and reasonably sized rear garden, down to lawn. The property also has the advantage of a useful range of outbuildings.
