Property Description

A characterful detached three-bedroom property occupying an exceptional 0.75-acre plot, with substantial outbuildings, a double garage and exciting potential for refurbishment and further enhancement.

Tucked away in a wonderfully private position in the centre of Gressingham, this detached property offers something increasingly difficult to find; space, privacy and genuine potential.

The house itself retains plenty of charm and character, with generous proportions, established gardens and a lovely relationship with its surrounding grounds. However, it is important to be clear that the property now requires a full programme of refurbishment, offering an excellent opportunity for a new owner to remodel, modernise and ultimately create a home entirely to their own taste.

And it is the plot that really sets this property apart.

Extending to approximately 0.75 acres, the grounds provide an unusually large and private setting for a residential property, with extensive lawn, mature trees, established planting and plenty of scope for imaginative landscaping or other appropriate uses, subject of course to the necessary consents.

The property also benefits from a substantial double garage with three-phase electricity, making it particularly useful for those requiring workshop, storage or EV-charging facilities. There are also two additional outbuildings, providing further versatility and potential.

Internally, the accommodation currently provides three bedrooms, alongside a good range of reception and ancillary spaces, but the condition and layout present an opportunity for significant improvement and modernisation.

For the right buyer, this is less about purchasing a finished house and more about acquiring an exceptional piece of land with a character property at its heart, a rare opportunity to undertake a substantial refurbishment project in a beautiful rural setting.
