You usually pay Stamp Duty Land Tax (SDLT) on increasing portions of the property price when you buy residential property, for example a house or flat.

The amount you pay depends on:

- when you bought the property
- how much you paid for it
- whether you're eligible for relief or an exemption

Rates for a single property

You pay SDLT at these rates if, after buying the property, it is the only residential property you own.

You will usually pay 5% on top of these rates if you own another residential property.

Rates from 1 April 2025
