ENTRANCE HALL

The entrance hall is welcoming and well-proportioned to greet guests. It has a coat cupboard and provides access to the Sitting Room, Kitchen, and Ground Floor W.C. Stairs rise to the bedroom accommodation above.

THE KITCHEN

This enjoys views over the front garden. There is an established camelia (white), crab apple tree, philadelphus and flowering cherry tree. The kitchen layout is open plan and flows seamlessly through to the conservatory. There is plenty of bench top space, with integrated appliances. These include a dishwasher, fridge/freezer, an electric eye level oven, and the hob is electric. There is an under bench washing machine. The kitchen without the original dining area is spacious and opens into the conservatory.

THE CONSERVATORY

This room has become the heart of this home. It really is the "room for all seasons". The double glazing keeps the temperature to a comfortable level in the summer and the underfloor heating keeps it snug and warm in the winter. Currently used as a dining room it has been the focus of many a dinner party for friends and family. 3 sides have doors that open wide to make summer a treat in this special location.

THE SITTING ROOM

This elegant room has double doors that open out to the rear garden. There is potential for a wood burner should the new owner wish to develop that opportunity. It is delightfully bright and sunny.

BEDROOM FOUR

The smallest of all the bedrooms this single bedroom currently has the desk in it as well as a bed and would make an ideal office. It has a lovely outlook over the rear garden.

BEDROOM THREE

This twin is currently the grandsons' room with toys galore. It enjoys a lovely view over the front garden through the crab apple tree and the flowering cherry tree.

BEDROOM TWO

This double bedroom enjoys views over the front garden and gets the first of the morning sun. It has a wall of built in wardrobes with mirrored finish. It has its own ensuite with shower, W.C. wash hand basin, heated towel rail and extractor fan.

THE FAMILY BATHROOM

This is located on the first floor and has a bath, W.C. wash hand basin and heated towel rail. It has its own extractor fan.

THE PRINCIPLE BEDROOM

Situated at the top of the house. Forget swinging the cat, you could swing a horse in this room? This really is a lovely space for the discerning couple. The measurements say it all. There is a wall of built in wardrobes with mirror finish. The ensuite, (another generously proportioned room) has a bath, shower, W.C. wash hand basin and heated towel rail. There is a storage cupboard next to the shower.

OUTSIDE

There are gardens to the front and rear of the house and as the home borders trees with TPOs and the wildlife corridor (currently known as the bat run) it really could be a conservationist's delight. There is a mix of patios, hedges, established shrubs and trees. There are two garden sheds. There are plenty of bulbs for that Spring show.

OWNERS COMMENTS

We have loved our ten years at No.14. New opportunities have beckoned, and we are on our way. Our quiet hideaway in the corner has been a real joy no matter what the season and establishing the garden has been a labour of love. Bird song in the morning and sundowners in the evening, it doesn't get much better. It was when we added on the conservatory at No. 14 that our home really blossomed. We had that space to entertain family and friends and in the quieter times the seasons really came alive. Some things we will miss, but it is someone else's turn now.
