

Derby Road,  
Long Eaton, Nottingham  
NG10 4LS

**£450,000 Freehold**

THIS IS A SUBSTANTIAL EDWARDIAN SEMI DETACHED PROPERTY WHICH IS CURRENTLY USED AS OFFICES BUT HAS PLANNING PERMISSION TO BE CONVERTED INTO THREE HIGH END APARTMENTS OR COULD ALTERNATIVELY BE CHANGED BACK INTO A HOUSE.

Being located on Derby Road, this substantial property is currently divided into several office suites which are occupied and let by the current owner to several businesses. There is the option to keep the property as it is and let the offices to people looking for this type of work accommodation, convert the property into three apartments for which planning permission has been obtained, or change it back into an individual home. The property retains many original features and for the size of the accommodation, which is arranged on three levels, to be appreciated we recommend that interested parties do take a full inspection where upon a representative from Robert Ellis can meet you outside the property and give you a guided tour around all the rooms. The property is well placed for easy access into Long Eaton town centre where there are excellent shopping facilities and to excellent transport links, all of which have made this location such a popular and convenient place for people to live or work from.

The property has an attractive appearance with a large garden area at the front which could be changed into further parking if preferred by a new owner and there is a secure parking area at the rear. The house is constructed of an attractive brick to the external elevations under a pitched tiled roof and the accommodation included derives the benefit of a gas central heating system. In brief the accommodation is entered through a main entrance door at the side and this takes you into a reception hall, from which there are doors leading to three large ground floor rooms, the two at the front having feature fireplaces and as with other rooms around the property, have deep skirtings and other features. There is a store room off one of the rooms and there is a glazed internal door leading into a hallway from which there are stairs taking you to the first floor and there is another office suite off this hall and doors leading to a rear passageway which takes you to various storage rooms at the rear on the ground floor level and to a cellar. On the first floor the landing leads to five rooms, all of which are currently or in the past used by separate businesses and towards the rear of the first floor there is a dining kitchen and two separate w.c.'s. There is then a flight of stairs taking you to the second floor where there is a large open plan room which is currently vacant and within the redevelopment/conversion scheme would become a studio apartment. Outside there is a garden area at the front which has been designed and landscaped to keep maintenance to a minimum and to the right hand side of the property there is a driveway leading through gates to a secure parking area at the rear.

Being positioned on Derby Road, the house is well placed for easy access to the town centre where there are Asda, Tesco and Aldi stores along with many other retail outlets, Trent College and The Elms Independent Schools are across the road and state schools for all ages within walking distance, there are healthcare and sports facilities which include the West Park Leisure Centre and adjoining playing fields and the excellent transport links include J25 of the M1 which is only a few minute's drive away, East Midlands Airport, stations at Log Eaton and East Midlands Parkway and the A52 and other main roads provide good access to Nottingham, Derby and other East Midlands towns and cities.

Original wood panelled front door with three inset arched glazed panels and an arched glazed panel above leading to:

#### Reception Hall

Original panelled doors leading to the three rooms off the main hallway and a safety glazed door leading to the rear hall from which the stairs take you to the first floor, radiator, cornice to the wall and ceiling, panel for the fire alarm system and deep skirting around the hall.
