Robert Ellis are pleased to welcome to the market this double fronted two bedroom detached house sitting on a large overall plot offering fantastic future potential with historic planning permission granted for a 2 storey rear and single storey side extensions and external alterations and to create a long term four bedroom detached family house.

As previously mentioned the property sits on a fantastically sized overall plot which subject to permissions, could be put to other uses or incorporate within the renovation and extension of the current building, making a great long term family home.

The current layout of the property comprises an entrance porch leading through to an entrance hall which provides access through to a bay front living room, dining room with access to a small garden room beyond, kitchen and lean-to to the ground floor. the first floor landing then provides access off the landing to two bedrooms, bathroom and separate w.c.

We believe the property has so much potential to offer and could suit a wide variety of buying types as the property is located within this highly desirable residential location within easy reach of excellent nearby local amenities, shopping facilities, schooling, healthcare needs and transport links including the Langley Mill station and motorway junctions.
