The front garden is well stocked, being lawned with an array of mature bushes and shrubbery. The rear garden is overgrown and in need of general maintenance consisting of a paved patio area, ideal for entertaining and making the most of the afternoon sun. The rear part of the garden is again overgrown but would lend itself to landscaping to provide a variety of sections including potential vegetable plot and lawn area, the whole of which bounded by timber fencing. A useful timber garden shed is also included. Accessed from the garden only there is a garden lean-to which is in need of total renovation or removal to then replace with a more permanent structure. The lean-to does however have the benefit of power and light.
