A FOUR BEDROOM, TWO BATHROOM
END TOWN HOUSE OFFERED FOR SALE
WITH NO UPWARD CHAIN.

ROBERT ELLIS ARE PLEASED TO BRING TO THE MARKET THIS LARGER THAN EXPECTED EXTENDED TO THE GROUND FLOOR FOUR BEDROOM, TWO BATHROOM END TOWN HOUSE OFFERED FOR SALE WITH NO UPWARD CHAIN.

Having been extended to the ground floor in the late 1990's to incorporate a ground floor double bedroom with en-suite wet room (large enough for disabled access) under the relevant permissions and approvals at the time, meaning that this property is well equipped for those looking for an individual designed property with the ability to sleep a dependent relative on the ground floor.

The accommodation of the property overall comprises entrance hall, living room, dining room, kitchen, ground floor bedroom, shower room, utility room and store room to the ground floor. The first floor landing then provides access to three bedrooms, bathroom and separate WC.

The property also benefits from gas fired central heating from combination boiler, double glazing and small enclosed garden space to the rear.

There is the potential of utilising the space to the rear to park a small vehicle or to move the fence line to create a larger parking area. However, this would restrict the garden size.

The property sits favourably within close proximity of nearby amenities, including Hickings Lane Medical Centre, the shops, services and amenities in Stapleford town centre and good transport links to and from the surrounding areas, including the A52 for Nottingham and Derby, Junction 25 of the M1 motorway and the Nottingham electric tram terminus situated at Bardills roundabout.

There is easy access to ample outdoor space, including Hickings Lane Recreation Ground, Bramcote Hills Park and Ilkeston Road Recreation Ground.

We believe the property would be open to a variety of different buying types, including first time buyers, families and those looking for a specific property with ground floor bedroom facilities. We highly recommend an internal viewing.

The rear garden is of a low maintenance courtyard style garden being predominantly paved with a flowerbed area, pathway providing access to the gate to the side. There is a potential space for vehicle hard standing for a small car or the fence line could be altered to accommodate a larger vehicle. However, in doing so, garden space would then be compromised.
