To be sold at public auction on 30th July 2026 is this surprisingly spacious three storey mixed use freehold building.

Offered for sale with vacant possession, the accommodation consists of a ground floor self contained retail unit offering approximately 73sqm of internal useable space, with front retail space, a back room, kitchen and WC, as well as a cellar which sits over the front retail space.

Over the first and second floors is a self-contained two double bedroom apartment of approximately 107sqm. This is accessed from a shared gated passageway at the side with door leading to staircase, first floor landing with living room, dining kitchen and bathroom. A staircase from the landing then leads to the second floor where there are two double bedrooms.

The shop, in particular, requires a program of modernisation and improvement. The flat, less so, it was recently occupied and has the benefit of gas fired central heating served from a combination boiler.

Centrally positioned on Bath Street within the market town centre of Ilkeston in Derbyshire, bordering Nottinghamshire and equidistant between the two cities. Ilkeston has a population of just over 40,000 and a good variety of shops and facilities, including major supermarkets chains and good transport links with its own train station.

This building offers scope and potential to renovate and make into a great long term buy to let investment.
