External Details

The property stands on a good-sized, level corner plot. It has a perimeter wall with wrought iron fencing and a matching gate to the front and double gates leading to the driveway. The front garden has circular flowerbeds and pathways leading around the side of the property. There are mature beds and borders to the side with patterned concrete pathways leading to the matching drive, providing parking and access to the garage. There is also a shed. The rear garden is a major selling feature and has a timber summerhouse with twin timber and glazed doors, a paved seating area, walling and hedging and a good-sized level lawn, along with mature flowerbeds and borders. We have been informed by our clients that when they purchased the property, it was a double plot and the rear garden had permission to build a bungalow in the garden. This has long since lapsed.

The garage has an automatic roll-over door, a rear personal door and a window. It has power, lighting and an external double power socket.

Tenure

The vendor informs us the property is Leasehold and we await further information.
