External Details

Set back from Old Bank and approached by a long driveway, which gives access to Hill Top and the neighbouring properties, twin gates lead onto a wide concrete driveway. This leads to a turning point, also utilised as parking, and the driveway continues to the property's outbuildings. Immediately in front of the property, there is a shaped and level lawn with mature beds and borders, a spring water pond and a pleasant adjoining paved patio area with a raised flower bed. Beyond this is a lawn with conifer hedging to one side, a trellis style timber seat and a large vegetable/soft fruit garden. In the far corner, there are fruit trees and compost area. The gardens have perimeter walling, two greenhouses, mature flowerbeds and borders, there is access into the fields at the back of the greenhouses. The driveway has a lawn to the right-hand side with a perimeter wall, and then widens and leads to a very large open car port, which is perfect for parking caravans or motor homes. The far end is utilised as a wood/solid fuel store. A metal gates then leads through to the property's fields, and a further grassed area. The large outbuildings are one of the major selling features and have great potential, subject to any relevant permissions and consents required. They were constructed by our clients when the property itself was constructed in 1971, and have been used for cows and calves. At the far end, there is a large open shelter with a stable style door and a water supply. There is a separate workshop and adjoining this is a potting shed. We have enclosed a copy of the Title Plans/Field Plan to show the exact position, orientation and acreage included.
