DISCOUNT TO MARKET

Offered with 20% Discount to Open Market value, subject to criteria.

Discount to Market is development/property specific and subject to availability, status and eligibility including the eligibility criteria set and managed by Fylde Borough Council. The property must be the sole residence of all purchasers. The scheme is not available for buy to let properties. The discounted sale units are predominately for households who are first time buyers. Personal circumstances of all applicants are considered if they have a local connection to the Fylde and due to exceptional hardship are unable to afford access to the open market. You cannot apply to other Government shared equity schemes while also using this scheme. If you have an open application to any other shared equity scheme you must withdraw this before you purchase a Discount to Market property. However, you can use an ISA or Lifetime ISA to put towards your deposit.

Discount to Market cannot be used in conjunction with any other offer.

Please note the intention of the Discount to Market scheme is to retain the discount to market price for all future sales. Therefore, on a resale of a Discount to Market home, the seller is likely to be required to sell the Discount to Market home on the same terms as it was acquired (subject to certain exceptions) to preserve the discounted sale price.
