- Convenient location near the Town centre and beaches
- Huge potential in a great location
- Open plan kitchen diner leading to a conservatory
- Recently installed Air Source heating linked with Solar

Price £425,000 Freehold

Edgcumbe Gardens is a well-located street in Newquay Town which is very popular residentially and equally to investors thanks to its proximity to the beaches, the towns amenities and travel links. Located just 1 street back from main beaches of Newquay Bay, the property is extremely convenient for the Town Centre and it's amenities but is surprisingly quiet. The current owners have enjoyed the property for a number of years and think it's a great quiet area to enjoy the natural beauty of the coastline on the doorstep.

The house has huge potential. Although internal modernisation is required throughout, there is a lot of further potential with the possibility of loft conversions or further extensions. The house has undergone some major energy performance upgrades with all of the external walls internally insulated and re-skimmed, air source heating added and solar panel to the front South facing roof with double glazing fitted throughout.

From the front, the property has a driveway with parking for 2 vehicles with further potential to add another 2 parking spaces. This leads to the generous single garage and main front door to the house. The internal hallway gives access to the lounge, downstairs bedroom with en-suite and the open plan kitchen/diner which opens nicely into the conservatory. Although likely to be changed the kitchen is functional with an oil fired AGA currently being used for the cooking. There is also a handy separate WC accessed from the conservatory.

To the first floor are 3 double bedrooms and a further single with ample room on the landing to install a stairwell if further accommodation in the loft was required. The front South facing windows enjoy slightly elevated views over the neighboring houses.

To the side and rear of the property there are gardens mainly laid to lawn with mature hedging around the border. There is a covered decking and a very useful rear gate which provides quick access to the beaches.
