

Paul Mason Associates

Main Road, Danbury, Chelmsford, CM3 4DH
Guide price £645,000

- Detached, Four Double Bedroom Family Home
- Wonderful Views Over Lingwood Common & Blakes Wood
- Separate Lounge & Dining Area
- Modern Fitted Kitchen With French Doors To The Garden
- Ground Floor Cloakroom Plus Utility
- En-Suite To Master Bedroom
- Rear Garden With Elevated Countryside Views
- Two Carports
- Nilan Compact P Energy System Providing An Energy Rating 'A'
- NO ONWARD CHAIN

Gary Townsend at Paul Mason Associates offers a modern 'eco friendly' four double bedroom detached family home with countryside views over Lingwood Common & Blakes Wood. The property benefits from an Energy Rating 'A' making this a highly efficient and comfortable home for any family. An internal inspection is highly advised.

The village is surrounded by a wealth of National Trust woodland, including the historic landscape of Danbury Park & Lakes (a former medieval deer park). Only six miles due west of Danbury is the city of Chelmsford and its excellent choice of facilities, which include two outstanding Grammar Schools, shopping centre, and a station on the main line into London Liverpool Street (journey time 35 minutes).

Britton House, Main Rd, Danbury, Chelmsford, CM3 4DH

EXTERIOR

Driveway & Carport

The property benefits from two carports (one to side, and one opposite) and there is also additional, covered visitor parking.

Rear Garden

The property enjoys a wonderful rear outlook from the raised patio area which is ideal for outdoor seating and entertaining. Enclosed by timber fencing, the landscaped garden backs onto open green space with mature trees, providing a peaceful, semi-rural feel and an attractive natural backdrop. There is also a storage area to the side of the property and access gate to front.

Additional Information

Nilan Compact 9 - Compact P is the eco-friendly choice for anyone who wishes to exploit sustainable sources of energy to heat their homes and at the same time reap the benefits in the form of lower heating bills and a good, healthy indoor climate. Since Compact P is module-based, it offers not just one, but several solutions. Your home will be self-sufficient in sustainable energy and it will

no longer be necessary to use other sources of energy, such as oil or gas, to heat your home.

Compact P combines up to five functions:

- Ventilation with active and passive heat recovery
- Comfort heating
- Comfort cooling
- Sanitary hot water production
- Heating of the home

Compact P recovers the energy from the extracted air using a highly efficient counter flow heat exchanger. The remaining energy that is not utilised by the counter flow heat exchanger is used by the heat pump to produce hot water, and to further heat the supply air. The heat pump has a reversible cooling circuit, which means that, in the summer, the unit can cool the supply air by up to 10 °C. Due to the low air exchange, the cooling does not function as an air conditioning system. On cooling, the supply air is dehumidified, which gives a more pleasant indoor climate than is possible with an ordinary ventilation unit without a heat pump.

Important Notices

We wish to inform all prospective purchasers that we have prepared these particulars including text, photographs and measurements as a general guide. Room sizes should not be relied upon for carpets and furnishings. We have not carried out a survey or tested the services, appliances and specific fittings. These particulars do not form part of a contract and must not be relied upon as statement or representation of fact.
