Finished to a high standard throughout, the property offers bright, contemporary accommodation with PV solar panels, an air source heat pump, double glazing, ground-floor underfloor heating, secure-by-design locks recognised as a deterrent to break-ins, a private rear garden, garage and off-road parking.

The ground floor comprises a welcoming entrance hall, cloakroom/WC, study, separate lounge and a stylish fitted kitchen/dining room with contemporary units and access to the garden. The layout has been designed with modern family living in mind, offering flexible spaces for relaxing, working from home and entertaining.

To the first floor are four well-proportioned bedrooms, including a principal bedroom with en-suite shower room, plus a modern family bathroom and useful storage space. Interiors are neutrally decorated with quality finishes, including contemporary bathrooms, oak-style internal doors and attractive herringbone-style flooring to the ground floor.

Externally, the home enjoys a private rear garden with outside tap and outside lighting, together with a garage and off-road parking. The property forms part of a smart modern development with well-presented communal approach areas. Surrounded by open countryside, the development also features communal areas which, once established, will offer an abundance of flowers, bees and butterflies.

Latchingdon is a charming Essex countryside village, offering a peaceful setting while remaining within reach of nearby towns, amenities, schools and transport routes. With eco-friendly ASHP and PV panels, modern specification and low-maintenance design, this is an excellent choice for buyers seeking a newly built village home.
